What do you think government should be doing to reduce the greenhouse gases that are produced from:

cars?

buses and coaches?

vans and lorries?

passenger rail?

aviation?

freight?

maritime?

other transport?

Local journeys

What, if any, changes to reduce the greenhouse gases produced by your local transport, would you like to see made?

What, if any, examples of good transport initiatives in your local area do you have (with a particular focus on low or zero emission initiatives)?

Longer journeys

What changes would you like to see that will help to reduce the greenhouse gases produced from longer journeys?

Purchasing goods

What action do you think government should take to reduce the greenhouse gases produced from the:

distribution of goods across the country?

delivery of goods to shops or residences?

Travel choices

Do you find it:

easy to make informed travel choices in relation to the emissions produced?

difficult to make informed travel choices in relation to the emissions produced?

Information to inform travel choices

What information would you find helpful in making those choices?

The approximate measurement of greenhouse gases emitted as a result of your journey
A comparison of the greenhouse gases emitted as a result of your journey relative to other forms of transport
A comparison of the greenhouse gases emitted as a result of your journey relative to other lifestyle choices
